DECORS

The 10mm thick panels are 2400mm high and available in both 1000mm and 1200mm widths.

They are easy to cut to size and fit by simply bonding to a flat subsurface or timber batten frame for a perfect finish.

Samples can be ordered at **www.panelstyle.co.uk** or by emailing **info@panelstyle.co.uk**

proplas
panelling

With contemporary designs including sparkles and marbles, plus tactile matt textures and light reflecting high gloss finishes, Proplas creates a stylish look in any setting including bathrooms, kitchens and utility rooms. Proplas panels are ideal for walls and ceilings and can be simply fixed over existing surfaces like tiles or Artex. Please note that ceiling downlighters can be used with Proplas as the product can withstand up to 60 degrees heat; making renovation and refurbishment fast and easy.

# CREATE A STUNNING LOOK WITH TILE Style

All the style of tiles – without the cost, fussy fitting, mess and maintenance. The Proplas tile range is a great value, great looking solution that's quick and easy to install. Ideal in wet and dry areas, it is 100% waterproof and available in three styles with a choice of either matt, satin or gloss finish. The surface is warmer than tiles and is durable, hygienic and very easy to clean.

The matt panels combine the latest trends for tactile materials, organic colours and natural stones, offering 4 contemporary decors in a choice of widths and tile size, all with a realistic grout line.

The satin panels feature both a small and large format tile design, available in on trend grey and rich neutral tones. Each panel has a smooth satin finish with a bevelled edge to mirror the appearance of real tiles.

In addition the gloss Metro Tile provides a popular and versatile design aimed to mimic the look and feel of tiles.

TECHNICAL INFORMATION

Fixing Options

PanelStyle PVC waterproof panelling is fixed by adhering the panels to an appropriately sound, flat and plumb subsurface. If the subsurface is uneven then a timber batten frame should be installed to create a suitable subsurface to adhere to. Full installation instructions are supplied with all products and are also available to download from **www.panelstyle.co.uk**

Care & Maintenance

All PanelStyle PVC waterproof panelling is more hygienic and easier to maintain than tiles. The non−porous surface provides excellent protection against bacteria and stains. PanelStyle anti−bacterial cleaner kills germs and keeps hard surfaces clean without scratching. **Please note:** abrasive cleaners and bleaches **MUST NOT** be used on any PanelStyle product.

5 Year Warranty

PanelStyle PVC waterproof panels carry a 5 year residential/domestic warranty against manufacturing defects. A full copy of the warranty is available to download from **www.panelstyle.co.uk**. Note installation of the product must be in accordance with the fitting instructions supplied as incorrect installation will void the warranty.

Fire Rated

Fire Rating tested to BS EN 13501−1:2007 achieving and F.R. classification of C,S3,D0.

This PVC product can be recycled at your local recycling facility
