Axiom® by Formica Group
**Inspiration for
 Kitchen Living.**

The new Axiom® by Formica Group range is inspired by the changing ways that people live their lives in the kitchen today. For the 'hub' of your home, our new surfaces allow you to show your passion for expression, for versatility and plan for the multi-functional use of the space.

By delivering an exceptional choice of design and finishes, we hope to inspire your ideas too - always with your lifestyle in mind. The Axiom® range of stones, woods, patterns and colours creates a wide palette of variety and individuality to get the unique looks, quality and functionality you desire.

Kitchen living is increasingly about capturing the essence of styles to suit modern life. For us the key drivers are - Social Living, Family Living and Versatile Living.

Surfaces for **SOCIAL LIVING**

Platinum Etchings

Lustre

Satin NDF

Puregrain

A vision for entertaining spaces, shared.

Modern kitchen living is social, it's not just about status. Space needs to blend with your life, seamlessly integrated surfaces can make it easier to relax with friends.

Everyone is looking for likes when they share. When marbles and neutrals are mixed with warmer materials like wood grains, what's not to love?

Platinum Etchings

For croissants and chats.

When you've got some downtime, catch up on all the very latest happenings and snippets of gossip. These are ideal moments in an ideal location to share your 'big news' with loved ones and friends.

Our new Platinum Etchings surfaces blend sophisticated sparkle with a textured gloss finish, to create a stylish ambience.

Lustre

For that A.M. sparkle.

Mid morning coffee with friends, turning up unexpectedly before you've cleared away breakfast, makes for a good start to the day.

Bring an element of sparkle into your kitchen surfaces with Lustre. A unique texture, it truly captures the translucent effect of quartz particles found in natural stone.

Satin NDF

For the P.M. feeling.

Great nights begin in the perfect setting. All the best parties end up in the kitchen, so it's a great way to show friends just how stylish you are.

Satin NDF is a new grown up smooth, low gloss finish. Paired with beautiful marble designs to create dramatic effects in your kitchen.

Surfaces for **FAMILY LIVING**

True Scale

Scovato

Honed

Woodland

Lumber

A space to bring your whole family together.

Connect more. Today's kitchen living is about a desire for time being spent less screen to screen and more face-to-face. For families, the kitchen is the essential meeting place to spend more time together than ever before.

As boundaries between family living spaces merge, so do surfaces.

TRUESCALE

For when you choose bigger.

Contemporary 'island' living means capturing the beauty of natural materials like granite, marble or wood is now possible without the small pattern repetitions across the full width of the worktop found on traditional laminates.

Axiom® True Scale will get you as close to the real thing to help you create your own idea of island paradise.

Surfaces for **VERSATILE LIVING**

Etchings

Gloss

Matte 58

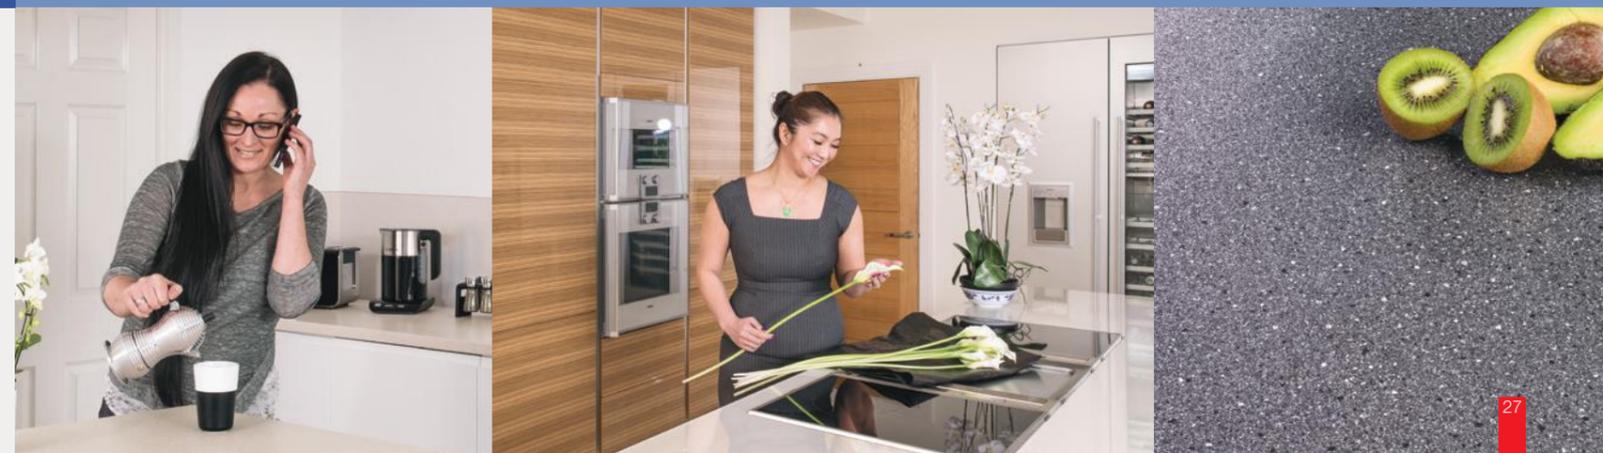

Crystal

Adapt a space to your unique style.

Kitchen living can turn the space into an area to express your unique style. Modern cooks see themselves as artisans and makers, expressing an appreciation of slow processes in the making of honest, quality products.

When materials come in their natural state, a balance between perfection or imperfection is welcome, the aged or authentic is as cherished as the new.

So versatility in surface selection, contemporary to traditional, is a must have...

Picture shows:

Etchings

For better off
bakes.

It's 'great' to be traditional these days. Looking to the past can create an authentic approach to the future and allow you to express your uniquely versatile tastes.

A subtle surface detail, highlighted by a soft polished sheen, gives an authentic granite look to the Etchings collection.

Worktop	Splashback

KEY TO SURFACE TEXTURES

The company reserves the right to change specification at any time. The designs reproduced in this publication have been matched as closely as the printing process will allow. However, it is recommended that you obtain actual samples prior to final use. Dimensions may vary slightly due to the manufacturing process.

Selecting your Kitchen Living Surface and Accessories.

Design & Colour Choose from one of 60 designs in the Axiom® by Formica Group range and let your dream kitchen come to life. Granite, wood, stone, plain and subtle patterned worktop and breakfast bar designs are available in a range of stunning colours.

Texture Texture adds substance to any kitchen surface so it's important to think carefully about a texture that is going to complement the exact look and feel you want to achieve. There are twelve premium surface finishes to choose from in the Axiom® range, meaning your dream kitchen will not only look good, it will feel good too.

Profile Each worktop design has been carefully matched with the most appropriate profile to enhance the look of the worktop:

Linea - A modern profile with a 6mm radius that emulates the shape of natural materials.

Axis - An exciting 3mm radius profile that combines straight, clean edges with quality natural stone and wood decors to create really authentic looking work surfaces.

Please check the Axiom sizes and availability table on page 40-41 to identify the profile available with your chosen decor.

Size & Layout Once you have selected your preferred design and texture, it is important to take special note of the sizes available. To offer ultimate flexibility, the full Axiom range is available as worktops (profiled on one edge) and breakfast bars (profiled on two edges). Please check the Axiom sizes and availability table to identify the size options available with your chosen decor.

Finishing Touches All decors in the Axiom range are available as matching upstands and splashbacks (except for wood grain designs which are not available as splashbacks). A further seventeen feature splashbacks have been handpicked to complement the Axiom worktop designs, ensuring your kitchen living gets the finishing touch it deserves.

Requesting Samples Seeing samples of worktops or accessories is an important part of choosing your dream kitchen and requesting a sample couldn't be easier. Simply contact us through one of the following methods:

Phone Call the Axiom® Samples Hotline (Freephone):

0800 376 2976 (UK) 1800 939 266 (ROI)

Online The Axiom® by Formica Group website is the ultimate resource to help you select a worktop design. Visit www.axiomworktops.com, select your design and request a sample.

For your Kitchen Living Quality is Guaranteed.

Lifetime Guarantee

This guarantee covers any laminate worktop found to be defective in either material or manufacture from the date of installation. Due to the properties of Gloss and Platinum Etchings laminate we are unable to accept performance responsibility for this decorative surface. Colour and surface finish should be compatibility checked before fitting as we cannot accept claims for re-fitting resulting from a mis-match of colour or surface finish.

The Installation and Maintenance Guide (supplied with the worktop) must be kept by the end user to validate any guarantees.

Gloss Worktops

All gloss Axiom® worktops (AB61) benefit from the unique AR Plus® laminate technology, which gives enhanced wear and scuff resistance compared to all other gloss laminates. Gloss surfaces do scratch more easily so additional care must be taken.

Upstands and Splashbacks

Axiom laminate upstands and splashbacks carry a 10-year guarantee. This guarantee covers any upstand or splashback found to be defective in either material or manufacture for up to 10 years from the date of installation. Gloss, Softmat and aluminium surfaces do scratch more easily so additional care should be taken on installation.

We are unable to accept any responsibility for the scratching of these products.

Quality Assured

All Axiom worktops are strictly manufactured in accordance with British and European standards to ensure they meet exacting modern kitchen requirements. Specific features incorporated into the worktop increase their resistance to heat, impact, moisture and scratching (excluding gloss).

For over 10 years the Axiom range of domestic kitchen worktops has achieved the ultimate mark of product quality – the FIRA GOLD AWARD. Assessed by the Furniture Industry Research Association, in accordance with British and International standards for all aspects of workmanship and 'fitness for purpose', it brings the assurance that this product has been manufactured to the highest standards.

Chalk Black

When using the Chalk Black feature splashback as a chalkboard the use of traditional chalk is recommended as liquid chalk pens may leave some ghosting on the surface. For more information and details on how to clean this product please contact us or refer to www.axiomworktops.com.
